

Relationships between **tleuser**, **audit_log_entry**, **language_string**, **item**

One query that is helpful for pulling together contribution titles with user names is shown below

select

tleuser.last_name, tleuser.first_name,
language_string.text

from

language_string, item, tleuser

where

item.name_id =language_string.bundle_id
and tleuser.uuid =item.owner

order by

tleuser.last_name, tleuser.first_name,
language_string.text
